

STEEL-FLEX®

YOUR SOLE DIRECTION FOR SAFETY

The STEEL-FLEX® protective midsole plate was developed by Swenco Limited to meet the growing demands of the safety footwear industry. Manufactured of high strength stainless steel and designed to provide maximum coverage and maximum protection.

STEEL-FLEX® midsoles meet or exceed all existing world-wide safety standards for protective footwear while providing a degree of comfort available in no other safety sole.

STEEL-FLEX® midsoles are available in sizes and shapes to meet the requirements of all types of safety footwear.

STEEL-FLEX® protective sole plates are covered under
Canadian Patents 1118594 and 1120710.
STEEL-FLEX® is a Registered Trademark of SWENCO LIMITED
